

Chief Financial Officer, Monroe, LA

### St. Francis Medical Center

For over 100 years, St. Francis Medical Center's mission of extending the healing ministry of Jesus Christ to those most in need has remained constant. From its modest beginning in July 1913 as a three-story red brick building with 75 patient beds, St. Francis Medical Center has grown to become Northeast Louisiana's largest healthcare provider with 352 licensed beds. One of the largest employers in Ouachita Parish, St. Francis has nearly 1,700 employees and an annual payroll of \$100 million dollars. St. Francis partners with over 300 physicians in various specialties and provides high quality medical, surgical and emergency services for the local residents.

St. Francis Medical Center (SFMC) located in Monroe, LA has retained Summit Talent Group to conduct a national search for the position of Chief Financial Officer (CFO). St. Francis Medical Center is part of Franciscan Missionaries of Our Lady Health System (FMOLHS), a \$1.8b (net patient revenue) nonprofit and faith-based health ministry headquartered in Baton Rouge, LA. St. Francis is licensed for 352 inpatient beds, with multiple community primary care and specialty practices and services in locations around Monroe that cater to all segments of the population.

The CFO reports directly to the FMOLHS Regional Chief Financial Officer with a matrix reporting relationship and day-to-day management oversight to the CEO of SFMC, and serves as a key member of SFMC's hospital and ambulatory leadership teams.

The CFO will be the constant voice for ensuring financial targets are communicated and met in accordance with long-term plans and turn-around actions. As a key conduit to the system office, the CFO provides a collaborative and data-driven approach to operational performance, return on investment, risk identification, predictive modeling, capital planning, growth and acquisitions, budgeting and cash flow projections.

Skilled in working in a "system culture" where resources are shared in a center of excellence, the CFO translates system priorities into actionable business plans, leveraging opportunities for standardization, cost reduction, compliance and scalability. Critical to success in this role is a candidate that offers operational and strategic expertise across the care continuum, focused on performance improvement, service line analysis, financial variances and corrective actions, and monitoring dashboard outcomes. Further, the CFO has

both direct and matrix responsibility for: general accounting, financial reporting, consolidation, budget, tax, internal audit controls, decision support and revenue cycle.

The ideal candidate will have a Bachelor's degree in accounting, finance or related field; a Master's degree and an active CPA license is desirable. Ten years of progressive financial leadership experience in an acute-care and ambulatory health system environment that is mission-focused and values-based is paramount for this role.
